

Good news means good series

By Andrea Cañamero

When the afternoons are so long and we usually get lazy on Sundays , I have the solution. The only thing that you have to do is... WATCH AMERICAN TV SERIES. I know that it is tiring to search the series their subtitles on Google but I swear that is a fantastic idea in order to have a good time.

You may think that Spanish series are better than the American ones, but I don't agree. Apart from the fact that you learn a lot of English watching these series, as you improve your listening, grammar, vocabulary and so on, the American producers are amazing and they can't be compared with the Spanish producers. So, let me tell you a few proposals for you to live up and you will see that I am right.

These are some of the American series that I'd like to propose as I find them are so good.

BONES

Bones is about a clever woman called Temperance Brennan ("Bones") and his team of investigation (Angela Montenegro, Jack Hodgins, Camille Saroyan and Lance Sweets). They work in Jeffersonian, a well-known centre of investigation. This centre collaborates and works together with the FBI (Federal Bureau of Investigation) and specially with one of their inspectors, Seelley Booth. Together they solve the most complicated cases and meanwhile, they have a good relationship. You can't miss any of the seven seasons.

The story starts when a strange plane accident happens. There's only one way to leave that place and it is on condition that a close relative accepts it. Who helps the scientist will be his son, Peter. He didn't have any relation with his father. They together start to investigate

some strange events that happen around in a world, called “Observers”.

GLEE

This is an amazing TV series, really. Glee is about a Glee Club called New Directions in the McKinley High School. In this club there are different characters with beautiful voices and strange lives. With the hope to arrive to the Nationals (Glee club competition) and to be winner, New Directions have the best performance and fight for to improve their show and to be somebody important in life.

Your life will be better if you see this TV series.

This is an unusual story. It's about four girls (Aria, Emily, Hanna and Spencer) that after the disappearance of Alison (their best friend) separated but, after a year, somebody find Alison's body. The four girls reunite and after Alison's funeral, they start to receive different text messages with threats and secrets that only they know. An a mysterious series with four pretty guys but with A dark secret that they don't want that anybody know.

You know, if you want to spend a good time, watch it.

SUPERNATURAL

This is my favourite TV series in the world and I'd love that you watched it. It's about two brothers (Sam and Dean Winchester). After the disappearance of their father and the death of Sam's girlfriend for a demon, they start a adventure around the USA, along many villages and cities, to kill all the demons, known as *metamorphos*, ghosts and others strange creatures in a world where

good and bad change their roles all the time. Sam and Dean have good friends who help them: Castiel (an archangel), Bobby Singer and others hunters. Seven seasons

THE VAMPIRE DIARIES

This TV series is about two vampire brothers (Stefan and demon Salvatore) that come back to their village. There, they meet Helena Gilbert, a plain girl whose family has a big secret in the town and vampires also involved. It's a mixture of drama, science-fiction, comedy, love and passion, lots of passion. It's a fantastic propose.
